

The CDNS Registration Guide - v2.0 (new AtHoc client v7.2.x)

1. **AtHoc client:** Verify version v7.2.x is installed on the NMCI workstation.
 - a. Right click an AtHoc icon (white ball w/purple ring) in the lower right of the screen.
Note: If AtHoc icon is not visible, left click the small white arrow then right click AtHoc icon.

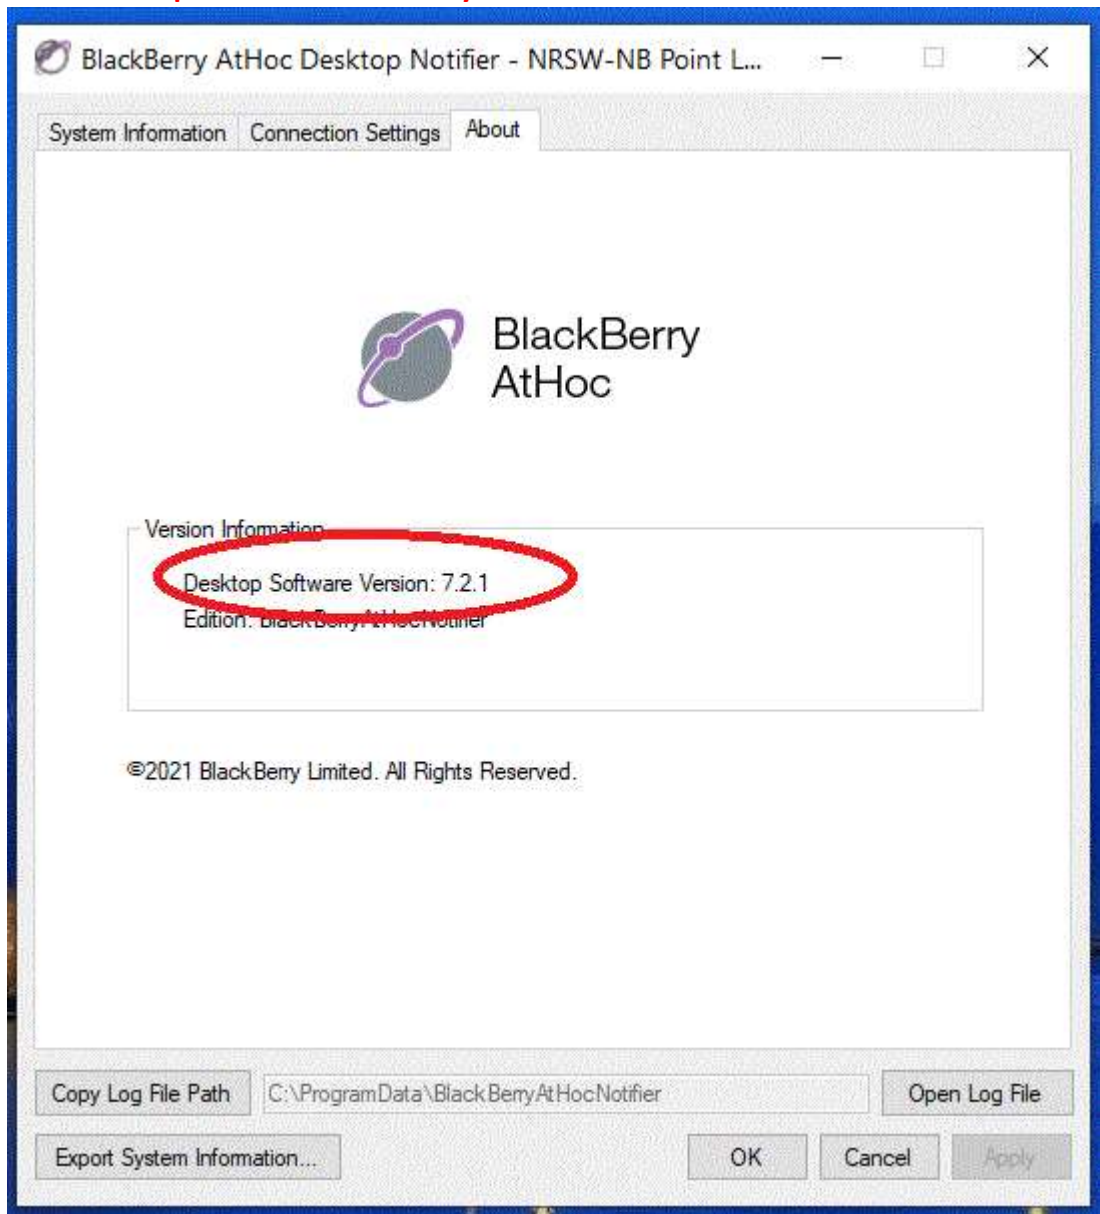

- b. Select "About"

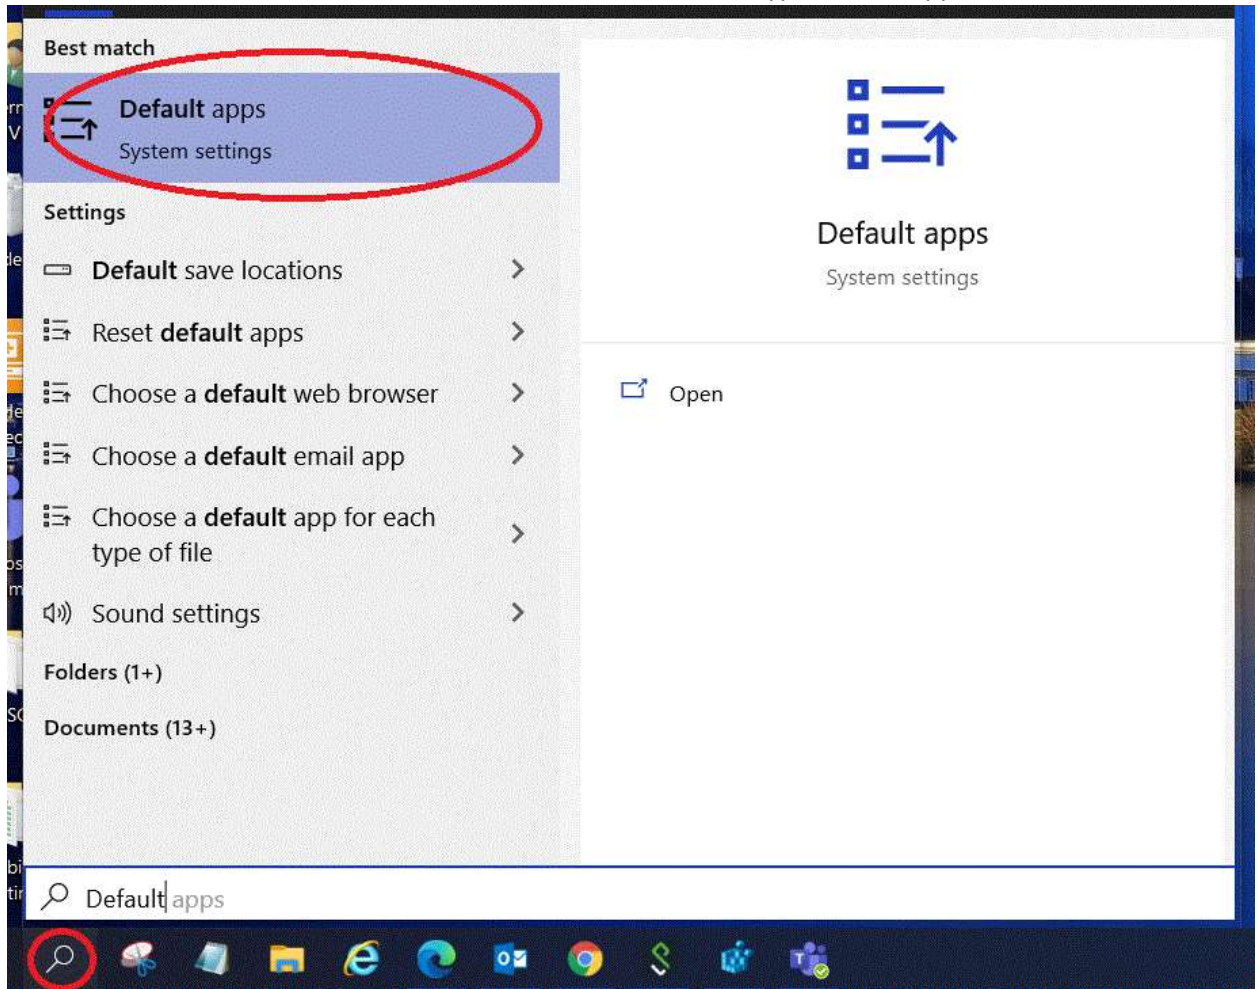

- c. Confirm "Desktop Software Version" reads 7.2.x

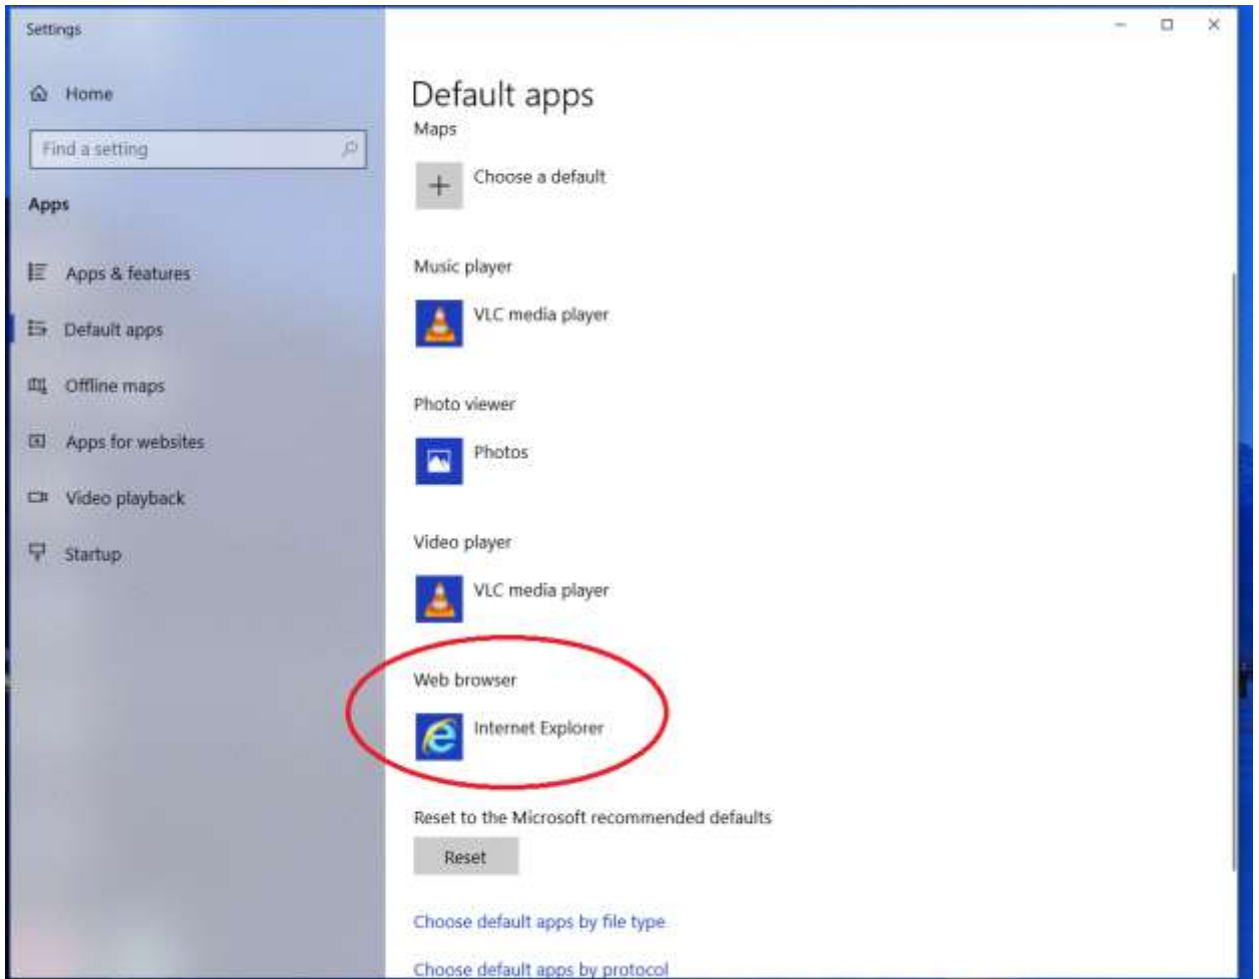

Note: If v7.2.x is not installed, stop registration. Call the NMCI helpdesk at (866) 843-6624 and request a new BlackBerry AtHoc client version "7.2"

2. **Default browser:** Select Search button (bottom left of screen), type Default apps and select it.

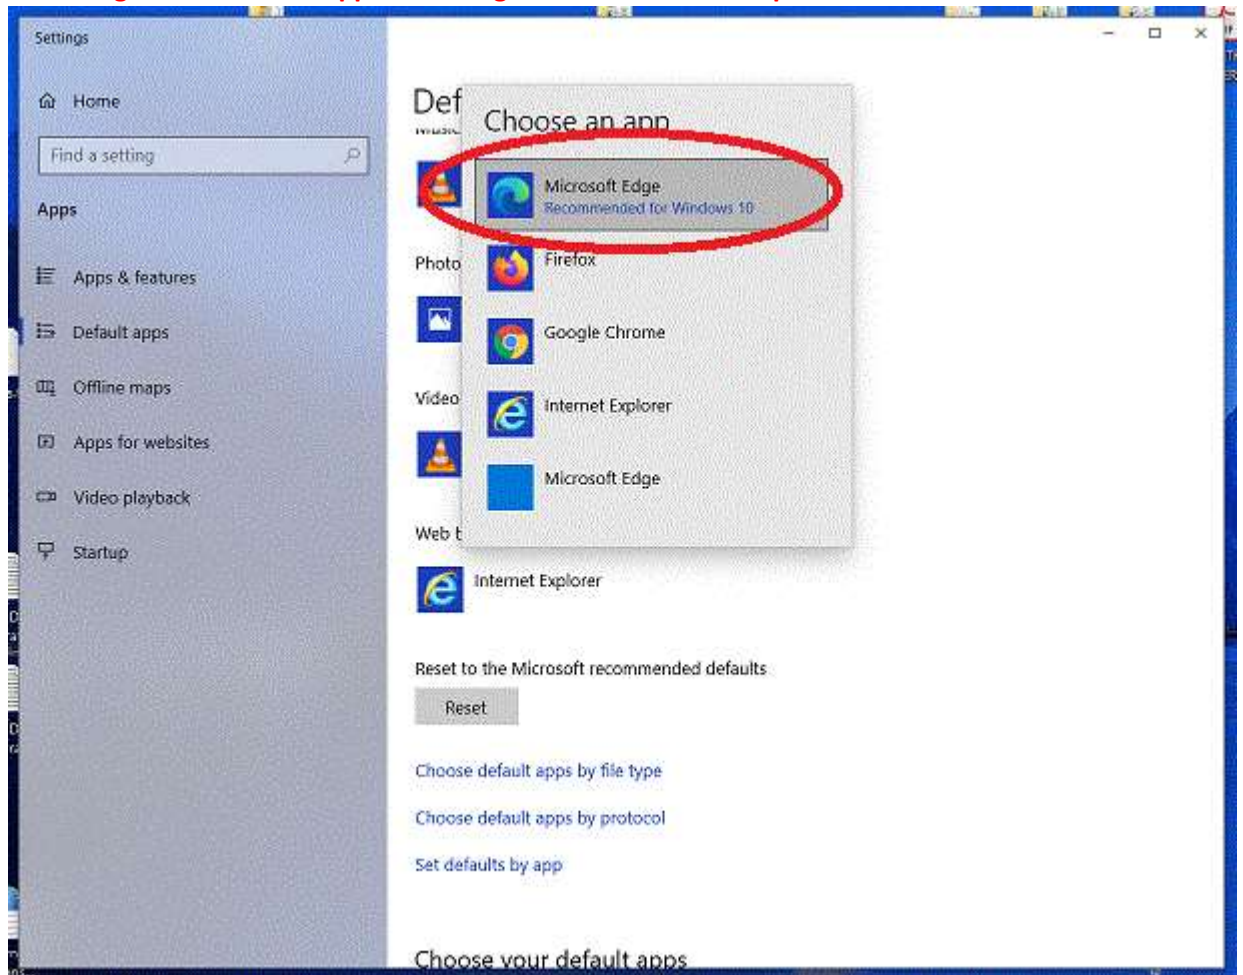

3. Scroll down to Web browser

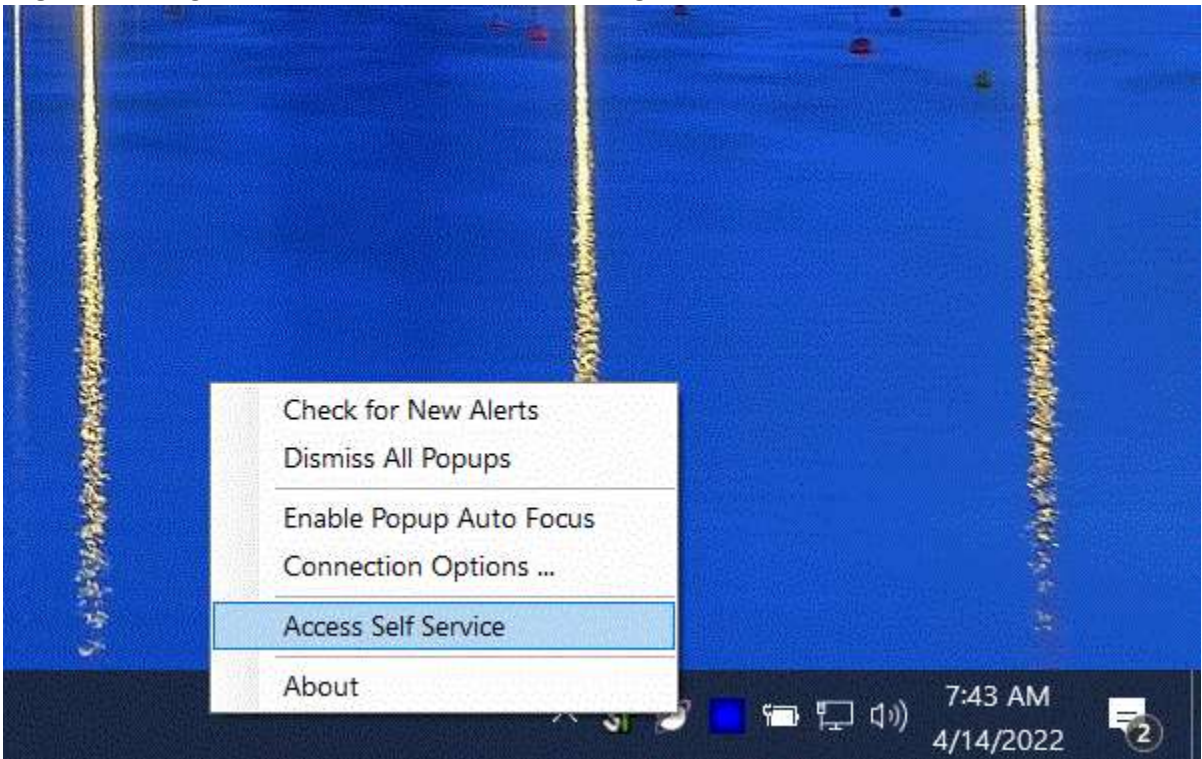

4. If Chrome or Microsoft Edge is not shown, left click the browser currently listed and select Chrome or Microsoft Edge.

Note: Registration is not supported using Firefox or Internet Explorer.

5. **Registration:** Right or left click the AtHoc icon then right or left click “Access Self Service”

6. Select 'My Profile' at top. Click “Edit”, fill-in and/or update your emergency contact information. **Click Save.**
